

COMMUNITY PARAMEDICINE FORUM – BREAKOUT SESSION #1

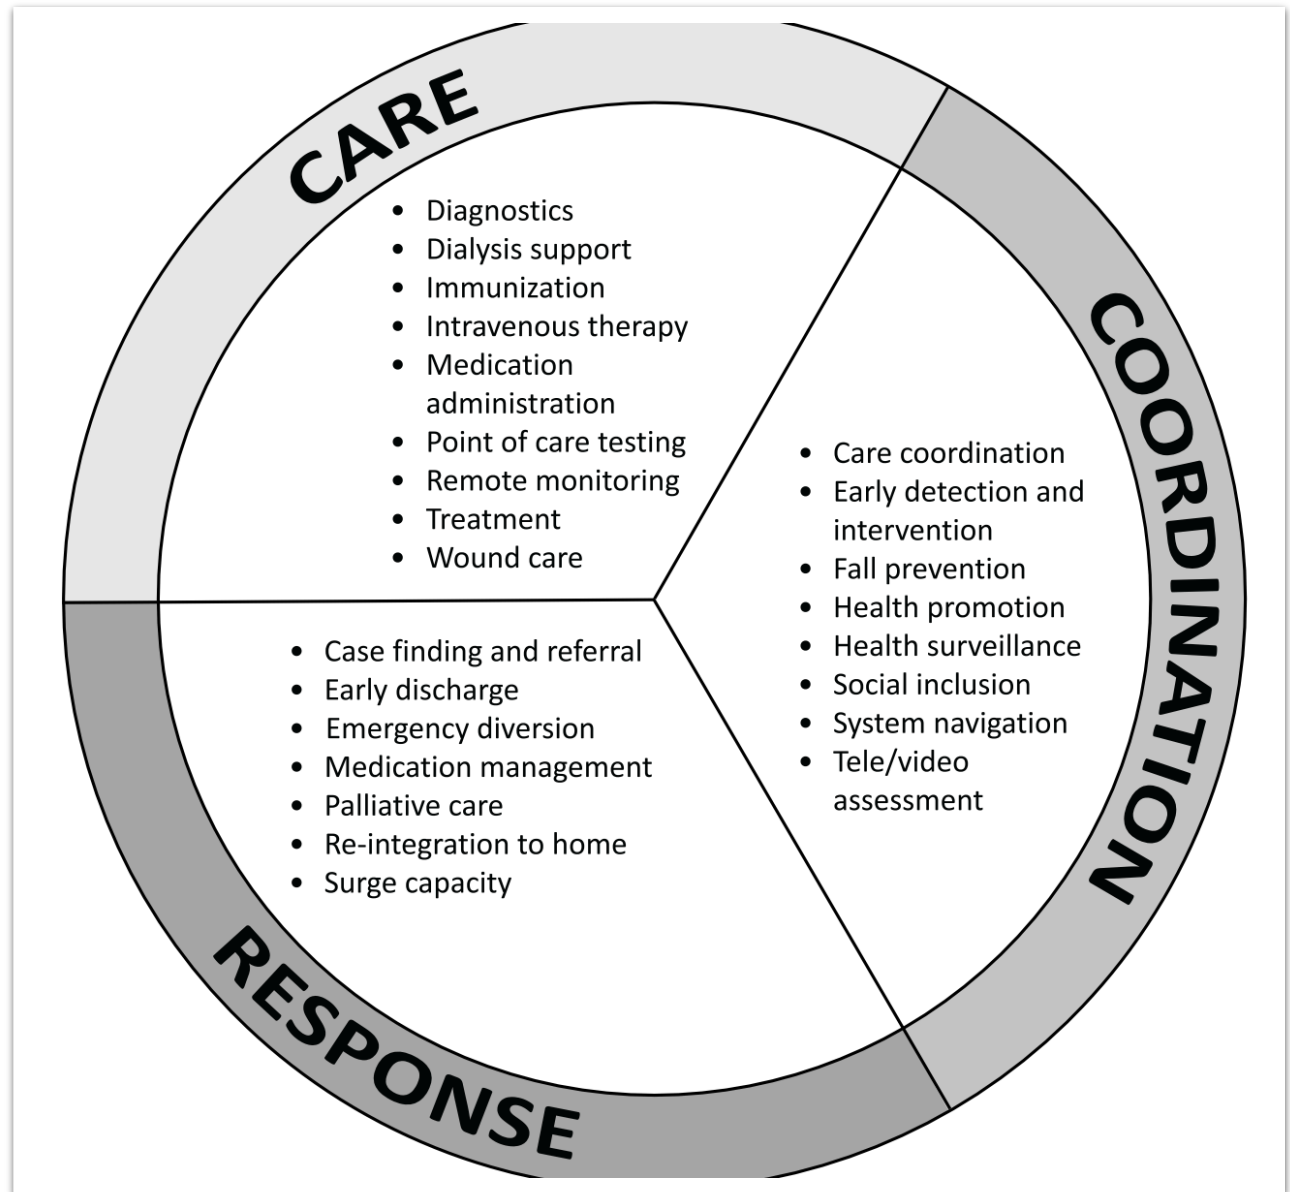

WHO DO YOU PARTNER WITH?

Discussions on integration.

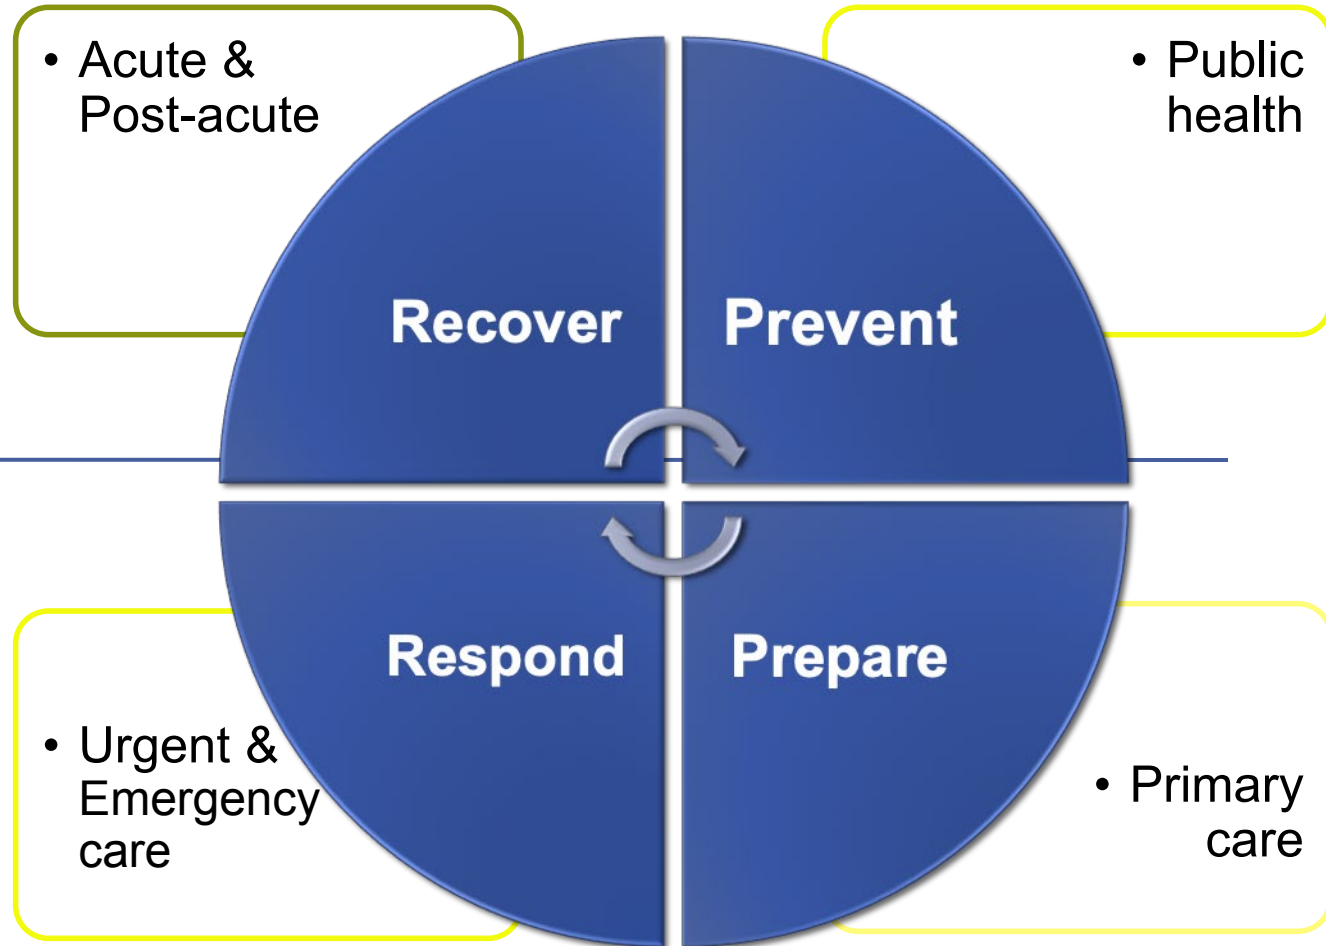

CSA Standard Z1630-17: Framework for CP Program Development

The CSA Standard on CP program development provides a lot of direction around definitions and models of care.

PARTNERSHIPS & INTEGRATION

The continuum of care meets emergency management principles

Begin with introductions!

- The groups you were assigned to intentionally put similar regions together – roughly following LHIN boundaries, with some exceptions.
- Take a few minutes to introduce yourself to the rest of your group to make sure everyone knows who you are.
- In the process, if you are a paramedic service representative name the health system partners that are involved in your CP program.
- If you are a health system partner, indicate the territory/catchment area for your clients—whether or not these are CP clients.

Discussion Questions

1. How have health system partnerships been successful in promoting integration and improving patient care experiences with your organization?
2. What partnerships are you seeking to strengthen your CP programs?

Discussion Questions

3. How can you take a regional approach to building partnerships and improving health system integration in your part of the province?
4. What aspects of integration and partnerships work well to facilitate funding for CP programs? What approaches have been used to overcome funding challenges?
